Denzel Washington born in Mount Vernon New York USA. The boy was named in honor of his father-priest. Denzel was the middle of three children in the family his mother worked in a beauty salon and in his youth, he being there as an apprentice helped her. After graduating from high school in Washington entered Fordham University where he first studied medicine, then biology, then became interested in journalism and finally became interested in the theatre. Denzel sparkled in many productions, student troupe one of his best roles was Othello in a production of Shakespeare's tragedy. Talent and hard work of Washington was awarded received a scholarship which gave him the right to continue their education at the American Conservatory Theater in San Francisco despite the fact that he received the diploma of the journalist. However, not having studied there and the year he left school and since then, the only place where he honed his acting skills have become the theater stage and film set. A young actor with open arms took the world of television. The first movie where Denzel had a small part became Wilma. This telemagnate famous American athlete Wilma Rudolph has played in the lives of Washington big role because on the set he met his future wife, Paulette. A few years later they got married. Obviously mindful of the fact as to the age of 14 he experienced his parents' divorce Denzel decided to marry once and for all. For many years, they with Paulette souls in each other is not chary and four children. Acting is a way to make a living and the family - life itself - likes to say Denzel. By 1981 Washington fame TV series good actor. And then came the Comedy the Copy in the negative dir. Michael Schultz. It was the debut of Washington on the big screen where he played brilliantly paired with George Segal. In the early eighties political correctness has not yet made their way into all the nooks and crannies of American life and could joke about the situation where the white businessman suddenly found a dark-skinned son of Denzel with enthusiasm and easily played this role. In a sense, Washington was lucky early in his career. And it's not just that he's never had to sit without work because the roles in the television series were followed by minor but distinctive and memorable film roles. To a much greater extent he was lucky with the time when it was formed as an actor. For America this was the era of rethinking the values and places in the film black actor and his character. Washington became an active participant
