

The city of Washington, the capital of the USA

Washington is the capital of the United States of America the city was founded in 1791 and named in honor of the first representative of the government of the United States - George Washington. This administrative unit is not included in any of the States and saves the name of the District of Columbia. The capital city combines all the main historical and architectural monuments to see, you can learn about the entire history of the formation of large and powerful state. The Washington project was entrusted to the famous American architect of French origin, Pierre L'Enfant who created a wonderful piece of art - Washington is one of the most beautiful cities in America. The L'Enfant designed the city in such a way that in the center of it all is the Capitol and it split the streets in the form of squares named in honor of the thirteen original colonies. Everyone knows Dublin is the capital of what country Washington in its external appearance is unlike the other cities of America - it has lots of preserved original monuments of majestic buildings - the government residence of the President structure of the military center, the Pentagon, the headquarters of the organizations of international importance the Capitol famous educational universities, etc. Here you see the tall building of skyscrapers, the government decided a ban on the construction of tall buildings the height of all constructions should not exceed the Congress of the United States Capitol. Thus all sides in the city you can admire the wonderful landscapes. Did you know that there is a monument to the Kitten in Voronezh Matter what city you decide to go on a trip to Washington to consider various options for the road.
